INDIAN WARRIORS' GAME WITH PENN WILL BE HOT ONE

Teams Always Play Rough Contest
for Indians Fight from Start to
Finish—O'Brien's Latest Joke.

EDGREN'S COLUMN

players of to-day were famous six or eight years ago.

The Indians are big fellows, with amazing speed for their weight. It's hard to beat a good Indian at any athletic game he becomes adept in, especially if running has anything to do with it. Some of the greatest lacrosse teams in history have been made up of Indian players.

JACK O'BRIEN says he wants to "show the public that he is a real champion, and fights on the level."

He means fight on the level, without showing off, that he is a champion of any sort—puff!

CHARLEY HARVEY's English fighters seem to keep busy in boxing circles. The fight between Moran and Frankie Nell in California will set Charles a neat little sum, and if Moran makes good will surely lead to big purses in stocks. Nell is a very popular little fighter on the coast. Moran is one English fighter who surely shows class. If he can whip Nell there's no reason why Attell should be allowed to sidestep him. And if Foxy Abe fights this younger, stronger, more rugged feather-weight it will be up to Abe to keep both eyes open and his famous sideset well oiled and in good working order.

THE story that Jeffries has become a dislocated wreck is all poppycock, worked up in the interests of the Terrible Tadpole, Jack Johnson. Stories of this kind regarding Jeffries are sprung when he is three thousand

miles west of the spot where they originated. It's safer that way.

GUNNER MOIR, according to the brand of rumor circulated around Gotham, has grown some during the past few months. Moir is said to weigh 220 pounds, which makes him a terrible man like Jeffries. Jeffries weighed just about 220 in his best fighting condition.

Moir weighed 185 pounds when he fought Palmer for the English heavyweight title. He weighed the same again in his fight with Frank Daniels. Moir gained forty pounds in anticipation of Burns' coming or was someone trying to string Tommy and make him worry on the trip across?

A NATION on this page yesterday announced that "Herman Fish" is "getting busy" in preparation for the swimming championships.

Perhaps you haven't heard of Herman before. He is a newcomer in the swimming game, but his performances are as remarkable as Daniel himself says. His record is 100 yards in 1:01.6, records if he sticks to it. It may break his meteoric career among the champions yesterday, in fact, he never tried swimming before.

Herman is a short, is a misprint. What the compositor meant to put into type was "Human Fish Getting Busy."
